1 INTRODUCTION

- 1.1 The Cronulla-Sutherland Junior Baseball Association Incorporated (hereafter referred to as 'CSJBA', or 'the Association'), is an association of clubs established for the benefit of its Players, so that they might:
 - a) Enjoy their sport;
 - b) Learn skills so as to achieve their personal best; and
 - c) Promote the game of baseball.
- 1.2 Our game is based upon three (3) tenets:
 - a) The Player's wellbeing is of primary importance, with their safety and security paramount.
 - b) As a junior sport, it is to be played in the manner defined in the Association's Code of Conduct outlined in the CSJBA Policy and Procedures, both in text as well as within the spirit in which these rules are written.
 - c) The game is based upon the rules of baseball (see Rule 3.1) and its conventions. However specific rules pertaining to our junior game are covered in this document (known as the "CSJBA Rules") for the purpose of making the game functional for junior Players.

2 DEFINITION OF TERMS

Throughout this document, the first instance of the term defined in this section 2 shall be referenced in UPPERCASE for the reader's convenience, whereas subsequent instances of that term shall not.

APPEAL PLAY: occurs when a member of the opposite team calls to the attention of an umpire, or the Association, an infraction which that member would have otherwise ignored had that member considered it to comply with various rules contemplate by and referenced in section 3.1 herein. An appeal play may be made, but necessarily limited to, an infraction in relation to configuration of the field, game process, equipment, batting, pitching, base running or fielding.

BASE: is one of four points, which shall be touched in sequence in order to score a run.

BASE COACH: is permitted to be stationed near first or third base to direct the batter and the runners. The Coach shall remain in foul territory adjacent to the base & shall not touch the runner.

BUNT: a batted ball not swung at, but intentionally met with the bat and tapped slowly within the infield

CATCH: is the act of a defensive Player (fielder) getting in their hands or glove, secure possession of a ball in flight and firmly holding it. It is not a catch if in falling down the ball is dropped. In establishing the validity of the catch, the fielder shall hold the ball long enough to prove that the player has complete control of the ball and the release of the ball is voluntary and intentional. It is not a catch if in flight it touches an umpire, offensive Player or a net. If possession is lost in the act of throwing after the catch is taken, then the catch shall stand. (This is called a play subsequent to the catch)

COURTESY PLAYER: where a team supplements its team roster with a Player from opposing team in that game. Teams may lend to a team running short a player(s) on request noting minimum Player requirement provisions outlined in Rule 21 herein. Courtesy Players shall only field in the outfield and will bat for their own club.

DEAD BALL or DEAD: is a ball out of play because of a legally created temporary suspension of play.

DEFAULTER: is the failure of an individual or member to meet the obligations (or conditions) of a loan or payment to an Affiliated Club, the Association, another Association, a club affiliated with another Association, Baseball NSW or Baseball Australia.

- c) National Team (Male or Female)
- d) A player selected to represent their Association in a Baseball NSW sanctioned event.

- Any female player who qualifies for a charter “All-Star” team will be classified as a DLRP.

- All other female players will be classified as non-DLRP.

Selection can be in the current summer season, the preceding winter season or the preceding summer season. For the avoidance of doubt, a Player who is invited to participate in any of the above after a trial who otherwise would not have been selected if not for the sole purpose of bolstering the number of Players in a squad, shall not be considered a DLRP.

DLRP status will not be conferred to the Player until the following season and as such, no restrictions, if any, will be assigned to a Player who may have attained DLRP status mid-season.

EXECUTIVE: refers specifically to the CSJBA Constitutional body comprising the positions of President, Senior Vice President, Vice President, Secretary and Treasurer, or their duly appointed delegate(s) as may be required from time to time.

- d) That touches first second or third base or;
- e) That first falls on fair territory beyond first or third base or;
- f) That, while over fair territory, passes out of the playing field in flight

- b) Register with their originating Home club which will compensate the Host club for miscellaneous costs such as balls, umpire’s fees, playing equipment as specified by the Host club.
- c) Return to their Home club in the following season if a team commensurate with that Player’s ability is available

- d) If the Home club is unable to provide a suitable team for a second successive season, the player may return to their host club for a second season without penalty. Should the Friendship player wish to join a different host club to the previous season then the transfer condition of being ineligible for representative selection will apply. However if the host club is also unable to provide a suitable team for the Friendship player that player will be able to seek an alternative host club without penalty.
- e) Should the home club be unable to provide a suitable team for a second successive season then the friendship player will be considered as a home grown player at the host club.

The pitcher, catcher and any outfielder who stations himself in the infield on the play shall be considered infielders for the purpose of this rule.

When it seems apparent that a batted ball will be an Infield Fly, the umpire shall immediately declare "Infield Fly" for the benefit of the runners. If the ball is near the baselines, the umpire shall declare "Infield Fly, if Fair".

The ball is alive and runners may advance at the risk of the ball being caught, or retouch and advance after the ball is touched, the same as on any fly ball. If the hit becomes a foul ball, it is treated the same as any foul.

If a declared "Infield Fly" is allowed to fall untouched to the ground, and bounces foul before passing first or third base, it is a foul ball. If a declared Infield Fly falls untouched to the ground outside the baseline, and bounces fair before passing first or third base, it is an Infield Fly.

Should a mutually convenient time not be agreed to then the Executive shall set the time for the game to be played. The Club Registrar shall then advise the Executive seeking final written approval.
- 5.11 In the event that a Player has not complied with rule 5.10, the Player duly authorises the Club to which the Player wishes to Transfer to, to notify the Player's original Club and seek written financial clearance (only).

Should the number of DLRP's in a team exceed 6 then the team will be restricted when fielding to the number of local players who are DLRP's or 6 in total, whichever is greater. Examples: Should a team have 8 DLRPs and 7 are LOCAL PLAYERS then the team may have 7 DLRP's when fielding. If they have 8 DLRPs and 6 are

6 PLAYING RULES FOR TEE BALL

- 6.1 These rules shall be read in conjunction with the “Little League International - Baseball Official Playing Rules” and where they are in conflict, these rules shall prevail.
- 6.2 In Minor Tee-Ball only, two (2) Coaches are permitted on the field whilst their team is fielding. In Major Tee-Ball only, one (1) Coach is permitted on the field while their team is fielding. These Coaches shall take up a position in the outfield and not interfere with the fielding or batting sides.
- 6.3 If the play by a fielder, which in the opinion of the umpire is an attempt to retire a runner by throwing the ball to a base and results in the ball passing the fielder into foul territory and no further play is possible, the ball shall be immediately called “dead” by the umpire. Runners will remain at the base they were advancing to, i.e., no passed ball rule.

THE BATTER

- 6.4 The batter shall wear a double earflap helmet.
- 6.5 The batter shall stand in an area called the Batter’s Box. If the batter steps out of this area whilst hitting the ball, the batter will be given out for “batting out of the box”. At most Tee- Ball grounds the Batter’s Box is not marked, so it is a matter of standing where the batter thinks the Batter’s Box would be. Many Players try to stand with their back foot behind the home plate; this would be “batting out of the box”. If the batter’s foot is touching the line of the batter’s box, the batter is not batting out of the box.
- 6.6 The batter shall take a set stance in the batter’s box and shall not move the back foot after the umpire calls “play ball”. Front foot movement is allowed. If the back foot is moved and in the

- umpire's opinion it was moved with the intention of hitting the ball in a different direction, the umpire will call "Foul" and one strike is recorded against the batter.
- 6.7 The batter is allowed two levelling practice swings only before attempting to hit the ball. Any more levelling swings will count as a strike. If the batter accidentally knocks the ball off the tee with the levelling swing, this will be called a "Foul" and count as a strike.
 - 6.8 The batter shall attempt to hit the ball with a full natural swing. The ball shall travel a minimum distance of two (2) metres from the Tee in order to be a "FAIR BALL"; any ball that falls short of this distance will be called "Foul" by the umpire and count as a strike. There will be a "marked out" semi-circle measuring from the back point of home plate two metres up the third base foul line and around to the first base foul line.
 - 6.9
 - a) In all Major Tee-Ball divisions, the batter is allowed three attempts to hit the ball. After three strikes the batter is out. In Tee-Ball all fouls count as strikes.
 - b) In the Minor Tee-Ball division, the batter is allowed five attempts to hit the ball into play. After five attempts the batter is out.
 - 6.10 When the umpire calls "Play" the ball becomes live until the umpire calls "Foul", "Dead Ball" or "Time". On such a call the ball becomes dead and play is temporarily interrupted.
 - 6.11 If the batter misses the ball and hits the tee, this will be called "Foul" and counts as a strike.
 - 6.12 The batter shall not throw (sling) the bat away after hitting the ball but should drop it to prevent the batter's team-mates from being hit by a thrown bat. The umpire should warn both teams about bat slinging before the game. If the bat is thrown (slung) during the game, the batter is out without further warning.
 - 6.13 There is no "INFIELD FLY" rule in Tee-Ball.
 - 6.14 When placing a tee for the batter, the base or back foot of the tee shall be in contact with the front edge of the home plate and the stem of the tee shall be as close as possible to the home plate. The tee shall be placed with safety the primary factor and for easy removal should a play at home plate take place.

THE RUNNER

- 6.15 On hitting a "FAIR BALL" the batter becomes a runner and shall continue to wear a helmet.
- 6.16 The runner may over-run first base without risk of being "TAGGED OUT" (see definitions for Tag/Tag Play) provided the runner makes no attempt to go to second base.
- 6.17 Stealing is not allowed. The runner shall be in contact with the base before the ball is hit. If the runner leaves the base before the ball is hit, the umpire will call "DEAD BALL" and warn the runner. If the runner leaves the base again, in the same inning, the runner is out, the ball is "DEAD" and any hit by the batter is nullified.
- 6.18 A base runner may run in a straight path/line between bases or a natural running arc between and around the bases. However if in the umpire's opinion the runner deviates more than one meter from a fielder, standing in his or her running path/line (natural running path or arc), in possession of the ball and attempting to "TAG" the runner, the umpire shall call the runner out for "running off the line".
- 6.19 If the runner is struck by a batted ball, before a fielder has the opportunity to make a play on the batted ball, the runner is out. The runner shall try to avoid the ball.
- 6.20 If the runner hinders, confuses or distracts a fielder who is trying to field a batted ball the runner is out for "interference". The ball is dead the moment the interference occurs and no runners may advance unless forced by virtue of the batter being awarded first base on the play.
- 6.21 If the runner over-runs second or third base they may be "TAGGED OUT".
- 6.22 The runner shall touch every base in succession.
- 6.23 If a runner is not touching his last legally occupied base when a fly ball or any other ball is caught

on the full, the runner shall return to last legally occupied base, or may be put out. A runner can be put out by being tagged or playing the base ("PUT OUT") before the runner returns to the base. On all occasions, the runner must beat the ball to the base to be safe.

THE FIELDER

6.24 a) The fielder shall be correctly dressed including cap and glove. The catcher will be required to wear a baseball helmet.

b) For all Tee-Ball divisions, no player may play in the same position for more than 2 innings in any game.

6.25 The fielder shall take up normal "baseball" fielding positions. Normal baseball fielding positions will be "marked out" using the width of a pitcher plate in all fielding positions as shown in Appendix 1 for Tee Ball Majors games only. Fielders are allowed to field deeper than the marked lines except the pitcher as per rule 6.26. Umpires should not call play until the players are in the correct fielding positions.

6.26 The pitcher shall stand with both feet on the pitching rubber until the ball is hit. When fielding the ball, the pitcher must throw the ball to complete the play. The pitcher will not be allowed to tag a runner to any base. All other fielding players are allowed to tag the runner/s.

6.27 The outfield should throw the ball to an infielder rather than run the ball in noting the umpire should not call time if an outfielder runs the ball into the infield.

6.28 The fielder shall not stand on the base unless a play at the base is in progress or imminent. But this does not entitle the runner to purposely collide with the fielder. If, in the umpire's opinion the runner has been obstructed, the umpire calls "Obstruction", the ball is alive. The umpire will monitor the runner's progress and if in the umpire's judgment the obstruction causes the runners potential to be hindered then the runner shall be awarded the base he/she would have achieved if the obstruction had not occurred.

THE TIME RULE

6.29 The "Time Rule" is used to stop the game at logical breaks in normal play. It is a "control" on the game that prevents unnecessary "panic" throwing and base running and thus reduces errors. This is especially important considering the age of the Players and the limited catching/throwing skills they possess.

The umpire shall call "time" when:

a) The defense attempts no further play after the ball is in the secure possession of a defensive player within the vicinity of the base paths. Base runners shall not pass another base after the fielder has secure possession, unless the fielder attempts a play.

b) The game ball becomes dead.

c) Necessary, i.e., injury, conference, etc.

6.30 Where a ball that is hit directly to an infielder and held in secure possession, the umpire shall not call "time" until the batter has reached first base.

6.31 There is no "half way" between bases. The play shall continue until in the umpire's opinion no further play is being made by the defensive side or the runners do not choose to leave the base they hold (keeping in mind the "time rule" as it stands).

THE FORCE PLAY

6.32 The force play, applicable to all ages and divisions, but included in this section 6 for completeness, can only happen when:

a) The batter hits the ball fair and is forced to run to first base.

Note: The batter and any base runners who are forced to run are ONLY EVER forced to run one base. Once the batter or any other forced runner reaches first base or the base they are forced to, the FORCE is automatically removed.

- b) A base runner, on base, loses his entitlement to occupy that base if a following base runner is forced to the base the runner is occupying, i.e., runner on first, batter hits fair ball and forced to run to first, runner already on first forced to second, runners on first & second, batter hits fair ball and forced to run to first, runner already on first is forced to run to second and forces runner on second to run to third.
 - c) If first, second and third bases are occupied by runners, i.e., bases loaded, this would be a “force” to every base, including home plate.
 - d) When a forced runner is PUT OUT or TAGGED, the force is automatically removed from any preceding runners.
- 6.33 A runner that is forced to the next base can be PUT OUT or TAGGED by a fielder who has the ball securely in their possession
- 6.34 Any base runner Forced or Unforced, may be TAGGED when they are not in contact with a base, while the ball is live. They may also be TAGGED while occupying a base to which they are not legally entitled, i.e. batter hits fair ball, forced to first, the runner already on first does not run. That runner can be tagged out while standing on the base, by virtue of the fact that the runner is forced by the batter/runner. The runner loses his or her right to occupy first base.

SPECIAL RULES FOR MINOR TEE-BALL

- 6.35 Each team is entitled to score 4 runs per inning or to bat until the 3rd out is recorded, whichever comes first.
- 6.36 Each team may field a minimum of five (5) players up to Rules of Baseball (9 Fielders)
- 6.37 Rule 12.2, 15.2 (b) and (c) do not apply to Tee Ball Minor
- 6.38 Players may no longer advance when a fly ball is caught. When a fly ball is caught the hitter is out, the ball is dead and all runners will return to the base held before the ball was hit. Double plays are no longer an option.
- 6.39 Where rules 6.36 to 6.39 happen to conflict with another rule in this document, the above will take precedent.

7 PLAYING RULES FOR LITTLE LEAGUE MACHINE PITCH

- 7.1 These rules shall be read in conjunction with the “Little League International - Baseball Official Playing Rules” and where they are in conflict, these rules shall prevail.
- 7.2 a) Before the ball is hit in Machine Pitch, no fielder shall be positioned inside an imaginary line between first and third base, excepting the pitcher, who shall have both feet in contact with the pitching rubber.
- b) In Little League Machine Pitch Division 3 and lower, no player may play in the same position for more than 2 innings in any game. The exception is for the position of catcher, in the event no other player in the team is capable of playing at this position.
- 7.3 In a game of Machine Pitch, the ball will be put into play by a CSJBA approved Machine Pitch machine (“Machine”). If the Machine is unavailable or breaks down, then:
- a) The ball will be put into play by a person taking a position in front of the pitcher’s plate, slightly to the first base side for a right hand batter or on the third base side for a left hand batter; and
 - b) The “Coach Pitch” person:

- i. Shall be a representative from the batting team and cannot be a Player in that team
 - ii. Shall wear a baseball glove and should wear a helmet, protective cup and face-mask.
 - c) In the case of a Machine breakdown, the incomplete innings will be disregarded and the match will recommence at the score and batter at the completion of even innings with the machine operating. Both teams will have equal access to a “Coach Pitch” person, and
- 7.4 The Machine shall be set-up for play as follows:
- a) The Machine will be fitted with the “small legs” stand.
 - b) The pitching machine is to be set-up;
 - With the centre stem of the legs 2 feet 6 inches on the 3rd base side of the line
 - With the centre stem of the legs 40 foot from the rear point of home plate
 - c) The Machine will be set so that the exit-speed of the pitched ball is in the range of 38-40 miles per hour for Division 1 and 36-38 miles per hour for other divisions.
 - d) The pitching machine will deliver a pitched ball that will pass over home plate at a suitable height, mutually agreeable to both managers. If no agreement can be reached, it is then solely at the discretion of the umpire.
 - e) Every pitch is deemed to be a strike unless it is so low, so high, or so wide, that the umpire deems that it is unable to be hit and declare it a “NO-PITCH”. Where the umpire calls a “NO-PITCH” the ball is dead and the runners cannot advance. (*ie: an umpire can only call “Strike” or “No Pitch” for any pitch from the Machine – or “Coach Pitch” per Rule 7.3).*
 - f) In Machine Pitch Division 1, all attempts by the batter to hit the ball shall be called strikes. However in the lower divisions, for the first five (5) rounds of the competition, it shall not be called a strike if the batter attempts to hit a ball that the umpire deems is obviously out of the strike zone.
- 7.5 The Machine shall be fed by the Player designated as pitcher.
- 7.6 When all fielders are in position and the batter takes his stance in the batter’s box, the umpire shall call “play”. At this time the pitcher shall feed the ball into the CSJBA approved Machine and then return to the pitcher’s plate.
- 7.7 In a game of baseball, no Player is to put the ball into the Machine without being directed to do so by the umpire.
- 7.8 After two (2) strikes are called on the batter, all foul hits shall be as for the normal rules of baseball.
- 7.9 Little League Machine Pitch Division 3 and lower shall play a strike 3 rule as follows: When strike three (3) is called by the umpire, the umpire shall call “TIME”. The umpire will then arrange to have a tee brought to the home plate and the batter will be allowed one (1) swing to put the ball into play. When the cleanly hit ball is put into play, the batter can advance to first base only and any forced runner can advance one base only. The batter and any forced runner may be put out by the defensive side. Unforced runners shall not advance. The batter shall be called “OUT” if the ball is either hit foul or missed. **NOTE:** a cleanly hit ball is an umpire’s judgment call.
- 7.10 In the event of a dropped third strike by the catcher, the batter will be called out by the umpire.
- 7.11 If the batter is hit by a ball pitched by either the Machine or the person “soft-tossing” the ball:
- a) the ball will be declared dead.

- b) no base will be awarded, no count shall be recorded against the batter for the pitch unless the batter has attempted to hit the ball. No Runner shall advance.
 - c) If the Player is unable to continue batting as a result of being hit, that turn at bat is concluded, the batter is not declared out and the next batter in the line-up will come to the plate with no count. Play will re-commence when the umpire calls "play".
- 7.12 No walks will be awarded in the Machine Pitch competition. The batter remains at bat until the ball is hit into play or three strikes are called by the umpire.
- 7.13 A batted ball coming into contact with the Machine or the person "soft-tossing" the ball shall be called "DEAD" by the umpire. The batter shall be awarded first base and all forced base runners shall advance one base.
- 7.14 If a thrown ball comes into contact with the Machine or the person "soft-tossing" the ball, the umpire shall call the ball "DEAD" and award bases, which in the umpire's opinion, the runners would have gained had there been no interference.
- 7.15 If a fielder attempting to make a play on a batted ball, comes into contact with the Machine or the person "soft-tossing" the ball, the umpire shall call the ball "DEAD". The batter shall be awarded first base and all forced base runners shall advance one base.
- 7.16 In the event of a "pop-up" fly-ball, which in the opinion of the umpire, could potentially lead to a Player coming into contact with the Machine, the umpire shall call "TIME", all play will cease and the ball will be declared "DEAD". Base runners shall return to the base that they occupied at the time of the pitch and no count shall be recorded against the batter for the pitch.
- 7.17 If during playing time the Machine is disturbed in its positioning or settings, or if in the opinion of the umpire the Machine is pitching outside the originally established or required strike zone, the umpire, at his or her discretion, will call "TIME" and request that the home team assist with re-establishing the strike zone and playing parameters as described in Rule 7.4(d).
- 7.18 A "BUNT" is not permitted in CSJBA Machine Pitch.
- 7.19 The "Infield Fly" rule is observed in CSJBA Machine Pitch.
- 7.20 If the play by a fielder, which in the opinion of the umpire is an attempt to retire a runner by throwing the ball to a base and results in the ball passing the fielder into foul territory and no further play is possible, the ball shall be immediately called "dead" by the umpire. Runners will remain at the base they were advancing to, i.e., no passed ball rule.
- 7.21 Where possible, the Team Manager should ensure that the catcher is "geared up" and ready to start the next fielding inning.
- 7.22 The HOME team only is to provide the umpire with 2 match balls, the umpire is to maintain control of the spare match ball to minimise the delay when a match ball goes out of play. Spare balls are not to be located under the Machine.
- 7.23 A back net is required for all games of Machine Pitch. If a permanent net is not available, a temporary net shall be provided by the Ground Controller.
- 7.24 Where possible the main umpire for Machine Pitch games may be located behind the catcher. However, if the catcher is inexperienced and the umpire does not feel safe, it is acceptable for the umpire to move behind the Machine and call from this position. If the umpire is a "junior umpire", they are required to wear the correct protective equipment when they are located behind the catcher.
- 7.25 After Round 5, runners will be allowed to "STEAL" one base on a pitch that gets past the catcher. If the catcher keeps the ball in front or adjacent, then the runners shall not "STEAL". This rule is only in effect for games where the Machine is operating. **Stealing HOME will be limited to only if a pickoff play is made by the catcher to any base.**
- 7.26 The "Time Rule" is used to stop the game at logical breaks in normal play. It is a "control" on the game that prevents unnecessary "panic" throwing and base running and thus reduces

errors. This is especially important considering the age of the Players and the limited catching/throwing skills they possess.

The umpire shall call “time” when:

- d) The defense attempts no further play after the ball is in the secure possession of a defensive player within the vicinity of the base paths. Base runners shall not pass another base after the fielder has secure possession, unless the fielder attempts a play.
- e) The game ball becomes dead.
- f) Necessary, i.e., injury, conference, etc.

7.27 A runner shall remain in contact with the base until the Machine tossed ball crosses home plate. On the first occurrence that an umpire notices that a base runner has left a base early the following process will be observed:

- a) If the runner gains an advantage by leaving the base early and the ball is not hit then the umpire will call “DEAD BALL” and return the runner to the base that was left. If the ball is put into play by the batter then the play shall stand. In either case a warning shall be given to the Head Coach of the batting team.
- b) If a second infringement occurs of the same runner gaining an advantage by leaving the base early then the runner will be called out. Should the batter put the ball into play then the play will still stand.

7.28 Little League Machine Pitch Players may play up an unlimited number of games in Little League subject to compliance with the definition “PLAYING UP”.

8 PLAYING RULES FOR LITTLE LEAGUE PLAYER PITCH

- b) Runners shall remain in contact with the base until the pitched ball crosses home plate. On the first occurrence that an umpire notices that a base runner has left a base early the following process will be observed:

If the ball is put into play by the batter then the play shall stand. In either case a warning shall be given to the Head Coach of the batting team.

8.5 Little League Minor Player Pitch Division 3 and lower shall play an amended base on balls rule as follows: When ball four (4) is called by the umpire and typically a walk is awarded, and no further play is possible, the umpire shall call “TIME”. The umpire will then arrange to have a tee brought to the home plate and the batter allowed to complete their strike count by hitting off

the tee. When the cleanly hit ball is put into play, the batter can advance to first base only and any forced runner can advance one base only. The batter and any forced runner may be put out by the defensive side. Other runners shall not advance. The batter shall be called "OUT" if the ball is either hit foul or missed on the third strike. **NOTE:** a cleanly hit ball is an umpire's judgment call.

 - g) Should a tie remain, the tied teams will be ranked on the basis of run ratio (runs scored divided by runs conceded) in the games between the tied teams.
 - h) Any teams still tied after applying the above provisions of this clause shall be declared to have achieved joint status at that position on the ladder and a toss of the coin shall separate them for the purposes of positions in the finals.
 - i) If teams tie for the last available place in a finals series, an elimination game shall be scheduled between/among them by the Executive.
 - j) **For Machine Pitch Division 1 and Division 2 competitions only**, the above will apply except where teams finish tied for first place, with the same winning percentage, at the conclusion of the Qualifying Rounds. In such cases, these teams will be declared joint premiers provided each such team had finished with the same winning percentage in tied first place.

k) All Tee-Ball Minors, all Tee-Ball Majors and Machine Pitch Divisions 3 and lower competitions are classified as “Non-Competition” and will not have a competition table.

If the game is unable to be replayed due to inclement weather only, then the team finishing higher on the competition table will be declared the winner.
- 14.6 In the event of a Grand Final being abandoned due to fitness of the ground or inclement weather, the game shall be rescheduled only once. The Grand Final, if abandoned, will be rescheduled for the next Saturday immediately after the originally scheduled game. If the rescheduled Grand Final is also abandoned due to inclement weather only, the team first into the Grand Final will be awarded winners.
